

NEWS RELEASE

JULY 9, 2007

Victor Baruh, Vice President of the company, announced the formation of **Metalight Industries LLC** to promote the in-house design and production capabilities for the lighting lines and to introduce a completely revamped lighting collection not only for those looking to bring a nautical lifestyle theme to their homes, gardens and driveways, which the company is known for, but also for those looking for quality lighting in both the traditional and contemporary styles.

The company will be bringing to the market a new collection which draws inspiration from nautical fixtures of yesteryear and mesh them with current trends in home décor as well as traditional lighting elements updated with various metal accents. The lines will provide lighting for a wide spectrum of tastes and the separate collections will all have traditional and contemporary touches. The lighting lines will be sold through fine retailer and lighting showrooms and will be available during the fourth quarter of 2007.

For more information please contact Mr. William Jessup at wimj@meta-light.com.
