

## NEWS RELEASE

OCTOBER 10, 2007

Matt H. Yildizlar, President of Metalight Industries LLC, announced the addition of six additional lines to the company's growing list of collections for the upcoming 2008 season.

The new lines, **Nantucket**, **Dockside**, **Slimline**, **Monte Carlo**, **Cassis** and **Cannes**, will broaden the appeal of Metalight Industries LLC's current superior quality lighting to a variety of tastes.

While Nantucket continues the tradition of nautical styles the company has been known for, Dockside will be the first of a series of stainless steel fixtures specifically designed for coastal homes.

Slimline will be the first collection inspired by contemporary and sleek styles that Metalight Industries LLC will be adding to its portfolio of products in the coming months. As the collection name suggests, these fixtures will feature simple, modern lines to satisfy those clients who are looking for something smart and fresh.

Monte Carlo, Cassis and Cannes will be a series of classic yet sharp looking sconces and chandeliers with a polished or satin nickel finish and a variety of shade options. The company intends to start offering to its clients accessories such as shades, harps, finials and chains. "These new collections are inspiring us to offer lighting accessory options to expand the scope of the business," said Mr. Yildizlar, as the company continues to evolve each day adding new product lines to its existing premium lighting collections.

These collections will be available in the first and second quarter of 2008. Please visit our website frequently and stay tuned for the introduction of these exciting new products.
