

NEWS RELEASE

JUNE 23, 2009

Matt Yildizlar, President of Metalight Industries LLC, announced that the company will actively be looking to form alliances with major lighting retailers to manufacture private label products for the retail stores.

“At the moment we are selling all our products under the Metalight label but we see an opportunity to offer our collections under different retailer’s own brands” said Mr. Yildizlar.

Metalight is in advance talks with a major Northeast Retailer to do the first “private label program” of its kind. Private label programs offer retailers not only the same top quality products that Metalight is known for but they come at substantial discounts allowing the retailers to increase their profit margins and also build their own brands.

Metalight has a very competitive product development program for customers who want to develop their own models.
