

NEWS RELEASE

DECEMBER 1, 2009

Metalight Industries LLC announced today that the company will start offering its popular 500, 600 and 700 series fixtures in Compact Fluorescent Light (CFL) bulbs starting January 2010.

The socket will come with a G24q-2 base ballast but can be used with out without the ballast.

CFL versions will be available as special orders and will also be available for private label manufacturing.
